# SPOTLIGHT ON: PORTABLE APPLIANCE TESTING

Learn how to test portable electrical appliances with a certificate in Portable Appliance Testing. Aimed at practicing electricians this certificate will help and progress individuals within the Electrotechnical industry.

## Course Overview

Safety at work is the responsibility of employers and employees alike and acceptance of this responsibility is fundamental to ensure safe working practice. The new Electricity at Work Regulations (1989) came into force on 1 April 1990. The Regulations concern all employers, employees and suppliers who are responsible for the maintenance, servicing and installation of electrical equipment or services. This course meets the statutory requirements of the Health & Safety Executive.

During your study you will, learn, develop and practise the skills required to inspect and test items of electrical equipment in line with the latest edition of the Code of Practice for In-Service Inspection and Testing of Electrical Equipment.

## Course Duration

2 Days

## Target Group

This short course will be beneficial to electricians and other personnel who have sufficient knowledge & understanding of the content below.

## Progression

A certificate in portable electrical appliances can help you in your work as a qualified electrician. This certification is recognised across many industries, including:

- Building and construction
- Engineering

The certificate can lead directly into employment, offering learners the chance to develop their skills and knowledge to a high standard recognised by the industry.

## Assessment and Certification

You will complete a practical assessment and an examination. Once you have passed the assessment, you will be issued with an City & Guilds 2377-77 certificate.
